

LAKE ERIE WATERKEEPER 2016 Conference

2015 was a record algae bloom for Lake Erie exceeding the previous record set in 2011. Since 2011 tens of millions of dollars were spent to reduce nutrient/algae. What are water plants doing to treat algae? How are the water pipes? How much phosphorous was reduced.. How will fishing for walleye and yellow perch be in 2016? What is being done to reduce algae? Are there more nutrients being added to land? How is the Chesapeake making progress? How did Lake Erie 'get well' before?

When : Friday, March 18, 2016 9:00a.m. - 4:00 p.m.

Where: W.W. Knight Preserve 29530 White Rd. Perrysburg, Ohio 43551
